Follow us #TNAM2019

For the last 20 years, the TNAM conference has become the premier plant science meeting in Europe that attracts many participants and also much international attention. TNAM regularly brings together plant scientists from Europe and beyond who are interested in all aspects of leading edge basic and applied plant research using Arabidopsis as a model system.

SCIENTIFIC TOPICS

- Chromatin Biology
- Development
- Evolutionary Biology
- From Arabidopsis to Crops
- Membrane Biology and Trafficking
- Metabolism
- RNA-Based Epigenetics
- Stress Responses
- Technology Development

Abstract deadline: 15th January 2019
Registration deadline: 1st March 2019
Early Bird: 31st December 2018
